S U B J E C T: COVID-19 Notification
and Testing

Updates

We received notice today that one of our Associates tested positive for the presence of coronavirus. The Associate had a last day worked of Thursday, September 10 and is self-quarantined at home, recovering.

We have scheduled precautionary Resident and Associate testing to be administered on Friday, September 11 and Monday, September 14. Depending on the outcome of this round of testing, we may be required by the Arizona Department of Health Services to delay visitation for 14 days to help ensure the wellbeing of our family members and loved ones.

We will continue to keep you informed of the testing results and family visitation.

Important Information

** LifeStream closely follows the Maricopa County Department of Health Guidelines to determine when it is safe for an Associate to return to work. County Health guidance states that an individual with symptoms and a positive PCR (nasal swab) test must stay home for at least 10 days since symptoms first appeared AND be free of symptoms for at least 24 hours.*
