S U B J E C T: COVID-19 Notification

Updates

On Monday of this week, we began precautionary exposure testing for all Associates and Residents. We received notice yesterday, that an Associate tested positive for the presence of coronavirus. The Associate had a last day worked of Wednesday, October 21 and is at home under self-quarantine. In addition, today, we received notification that one of the Residents tested positive.

Exercising extreme caution and in accordance with guidance from the Arizona Department of Health Services, all Residents are under full quarantine in their rooms. Associates continue to strictly follow the required infection control protocols including wearing personal protective equipment (PPE) and carefully following hand hygiene and disinfection procedures at all times. Please note that per Arizona Department of Health Services, visitation is temporarily suspended due to one-or-more cases of active coronavirus.

We will continue to keep you updated on the testing results and when visitation can begin again.

Important Information

** LifeStream closely follows the Maricopa County Department of Health Guidelines to determine when it is safe for an Associate to return to work. County Health guidance states that an individual with symptoms and a positive PCR (nasal swab) test must stay home for at least 10 days since symptoms first appeared AND be free of symptoms for at least 24 hours.*
