S U B J E C T: COVID-19 Notification

Update

We received notice today that an Associate tested positive for the presence of coronavirus. The Associate most recently worked on our North Community at LifeStream at Youngtown. The Associate is at home recovering, following all established quarantine protocols. Our team continues to follow all contact tracing guidelines. Any Resident that is concerned and is wanting to be tested, please contact the Resident Services Office and we'll help arrange for a test.

With the current percent positivity rate in Maricopa county **reported to be 16.6%** ([per ADHS](#)), all LifeStream at Youngtown Associates undergo testing each week. Associates continue to strictly follow the required infection control protocols including wearing personal protective equipment (PPE) and carefully following hand hygiene and disinfection procedures at all times. We will continue to keep you updated on our ongoing testing procedures, and when visitation can begin again.

Important Information

** Maricopa County and Arizona Department of Health Services (ADHS) requires us to temporarily suspend visitation for an Assisted Living community if there are two-or-more COVID-19 cases in that community. Visitation is postponed until the Community has completed two full cycles of weekly testing with no new COVID-19 positive cases.*
